Greetings HPOA board,

Wanted to bring to your attention an article in today's Beverly Press, in which the data we have been collecting for the last two years is shared.

<http://beverlypress.com/2015/07/encampments-spring-up-as-homelessness-rises/>

This is a growing concern city-wide, as we discussed at last week's board meeting. With appreciation to the BID Patrol, our team goes out on the last day of the month at 4 a.m. and counts every person they see sleeping in the two BIDs and notes the specific location. So we have very good data now for two years, which documents this increase. Here is a snapshot of the overall data set for just June 30 over the past two years.

Compared to June 2013, there are 174 more homeless people sleeping in the two BIDs, an increase of 144%.

We continue to gather data (esp. re/ recent arrivals to Hollywood) and are gathering photos and video footage.

I was involved in two meetings re/ this topic yesterday; one at the Central City Association, and the second at Home for Good. The idea surfaced at Home for Good of asking the Mayor and the Board of Supervisors to declare a state of emergency to introduce extraordinary measures to build permanent housing for the chronically homeless. Bold idea, but under the circumstances, not a bad idea.

So, the conversations continue, and that is helpful in the public arena. And we are included.
